Artist Bio:

Mark Sheeky is a multi-disciplinary artist from the North of England. His career began developing computer games, publishing over 50 titles by 2006. In 2008 he became a full time artist, a surrealist/fantastical oil painter. Sheeky has one painting in the U.K. National Art Collection.

After early experiments in synthesizer music, his first music release was 'Arcangel' in 2000. Second release 'Synaesthesia' was released by REV Records in 2001. Since then, all of Sheeky's music remains self-published and, unusually, created using software tools of his own design, never using plug-ins or 3rd party tools.

As of 2024, Sheeky has published over 40 original albums or EPs. As well as a solo music artist, Sheeky is part of contemporary lieder duo 'Fall in Green'.

About The Music:

Mark Sheeky's forthcoming album 'A Drive Through The Town' is due out 2 August 2024. The album will be Sheeky's 35th solo album release, in a highly eclectic 25-year career as a music artist. The music on the album is a mix of snappy art-pop/rock songs with unusual themes; crossing a few genres, from the funky 'American Lawyer' and 'Excessive Consumption has Laxative Effects' to the prog-rock of 'Cat Parasites'.
